

Smoke test: Acceptable
Acceptance test: Medium
Found issues: 30

Top severity issues

ID	Severity
QATC-923872	Critical
QATC-923096	Critical
QATC-922975	Critical
QATC-922832	Critical
QATC-924020	Major
QATC-923991	Major
QATC-923145	Major
QATC-922773	Major
QATC-922676	Major
QATC-922356	Major

Testing environment

Operating system: Windows 10 (64-bit)
Browser: Google Chrome 135.135.0.7049.85

Recommendations

- In Sign-Up page add confirm password field and password visibility toggle option ([QATC-924129](#));

QA team

Company: a1qa
QA manager: Evgeny Sheremetyev
QA engineers: Mehedi Hasan

Additional information

Testing dates: 5.14.2025 - 5.23.2025
Time spent: 50 hours

Project Room Bridge

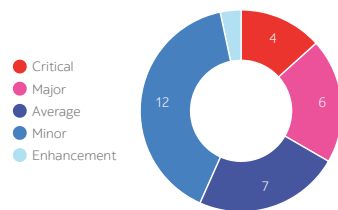

Product version: 1.0

General quality analysis

The overall quality of the application can be estimated as **Medium**. The total number of defects is [30](#). Functional defects prevail, [4](#) of them have the Critical severity and [6](#) defects gain the Major severity. The majority of defects is opened for modules "[Sign-UP](#)" and "[Address](#)". A detailed quality analysis is presented below.

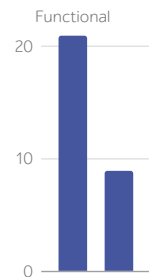

Detailed quality analysis

The total number of defects by severity

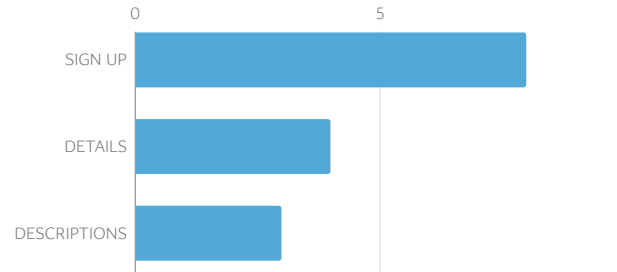

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **34%** of issues have [Critical](#) and [Major](#) severity. [Minor](#) (**40%**) defects prevail.

The total number of defects by error type

The chart represents the total number of defects by error type. In terms of **Functional** error, here [21 issues](#) were found. And in terms of **GUI** error, here [9 issues](#) were found.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in "**SIGN UP**" module ([8](#)), in "**DETAILS**" module ([4](#)), and in "**DESCRIPTION**" module ([3](#)).

Quality of separate modules

Module	Quality	Comments
Photos	High	The quality of this section can be estimated as High. Only 1 defect was found here. The issue (QATC-923652) is exactly the cursor remains active after labelling the photos. This does not significantly affect user experience or functionality.
Pricing & Terms	High	The quality of this section can be estimated as also High. Only 1 defect was found here. The issue (QATC-924030) is Changing the Max Stay in Short Stays automatically modifies the Min Stay in Long Stays, and vice versa. This does not also significantly affect user experience or functionality.
Description	Medium	The quality of module is estimated as Medium. In this section 3 defects were found. The most important problem is: "description" field accepts over 255 characters without validation message and crashes after submission and redirects to an error page (QATC-923145).
Details	Low	In this section 4 defects were discovered during the testing, 1 of them has priority critical and another one is major. The most important defects are that System prevents the user from accessing the Pricing and Terms page while selecting "entire home/apartment" in the accommodation option, causing the block of the checklist for this particular option (QATC-923096).
Sign-Up	Low	The Sign-up module has the lowest quality rating among these. The overall number of defects in this modul is 8, some of these are priority major and critical and affect the quality of the module vastly. For example, Connect with Facebook* button doesn't redirect to the Facebook login page, preventing the user from signing up through Facebook (QATC-922356), No verification email is sent when registering with a valid email address to create a new account (QATC-922676). Follow the link to view all defects found in this module.
